**Notes:**

- All information as of May 21, 2014.
- Total impacted by incomplete data from some state conventions. See body of table and notes for details. Care should be exercised in comparing SBC totals to previous years.
- Some state conventions no longer use the designation of church-type mission to categorize congregations which are not self-determining, self-sustaining, and self-propagating. This practice has impacted the number of churches and church-type missions.
- California Southern Baptist Convention and the Baptist Convention of New York did not ask the following items: Other Additions, Total Receipts, and Total Mission Expenditures.
- There are 1,704 church-type missions located in Haiti which are recorded as cooperating with the Florida Baptist Convention (FBC) during the 2013 reporting year. Statistics for these missions are included in the FBC's total for the following items reported in this table: number of baptisms and number of total members. These missions are not considered a part of the Southern Baptist Convention (SBC) and the statistics for these missions are not included in the reported SBC totals (Grand Total for SBC).
- Two conventions exist within the state of Texas. The Texas summary line does not show the arithmetic sum of the two state convention figures, because some congregations are affiliated with both state conventions, and their numbers are reflected in the totals for both state conventions.
- Two conventions exist within the state of Virginia. The Virginia summary line does not show the arithmetic sum of the two state convention figures, because some congregations are affiliated with both state conventions, and their numbers are reflected in the totals for both state conventions.
- This line includes four types of adjustments to the data:
  - The removal of duplicate data caused by 873 congregations that are affiliated with more than one state convention.
  - The removal of data from 161 congregations affiliated with a state convention but not affiliated with the SBC.
  - The addition of data from 1,331 congregations affiliated with the SBC but not affiliated with a state cConvention.
  - The addition of data "pulled forward" from previous ACP reporting cycles for 8,886 congregations that did not report in 2013.
